-Live your life as your legacy

"I'm a Generational Wealth Strategist; I help people live an 11+ life. Even more than that, I am a mother, a healer, and the friend that always has your back."

My obsession with safety has given me an in-depth understanding of mitigating risk and building wealth. I've turned my knowledge into action by managing nine trusts and businesses, growing one trust from \$100,000 to \$3,000,000 in just five years. My secret? A holistic approach that creates safety and empowers everyone involved.

Life has thrown me a few curveballs, but I never back down from a challenge. In times of uncertainty, I go all out to find solutions that prioritize safety.

The current state of the world economy has opened up new opportunities in cryptocurrency and has the power to change society as we know it. I'm all in on crypto and am constantly learning more about it. In my upcoming book, *Taming the Wild Wild West of Crypto: A Primer for Crypto Newbies*, I dive into the crazy world of crypto and help readers navigate their mindset around it.

To put more fun in life...

I enjoy gardening, pickleball, storytelling, discovering new wellness spas, attending crypto conferences, writing, traveling with friends, and dancing (did I mention dancing? I can't get enough of it!).

My reason for being

Infusing purpose into every aspect of life is where it's at! I'm thrilled when I can empower others to create their legacy through my generational wealth strategy consulting and writing.

Overall, I want to make my life my legacy....and I want you to live your life as your legacy.
